Endpoint

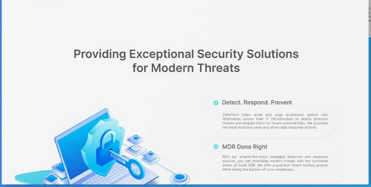
Endpoint security is the best way to secure entry points or endpoints of customer devices like laptops, smartphones, and desktops from being exploited by malware or other mischievous agents.



Providing Exceptional Security Solutions for Modern Threats

Detect. Respond. Prevent

CyferTech helps small and large businesses gather vital information across their IT infrastructure to detect potential threats and prepare them for future vulnerabilities. We prioritize the most malicious ones and drive rapid response actions.

MDR Done Right

With our around-the-clock managed detection and response solution, you can remediate modern threats with the combined power of SaaS XDR. We offer a premium threat hunting ground while taking the burden off your employees.

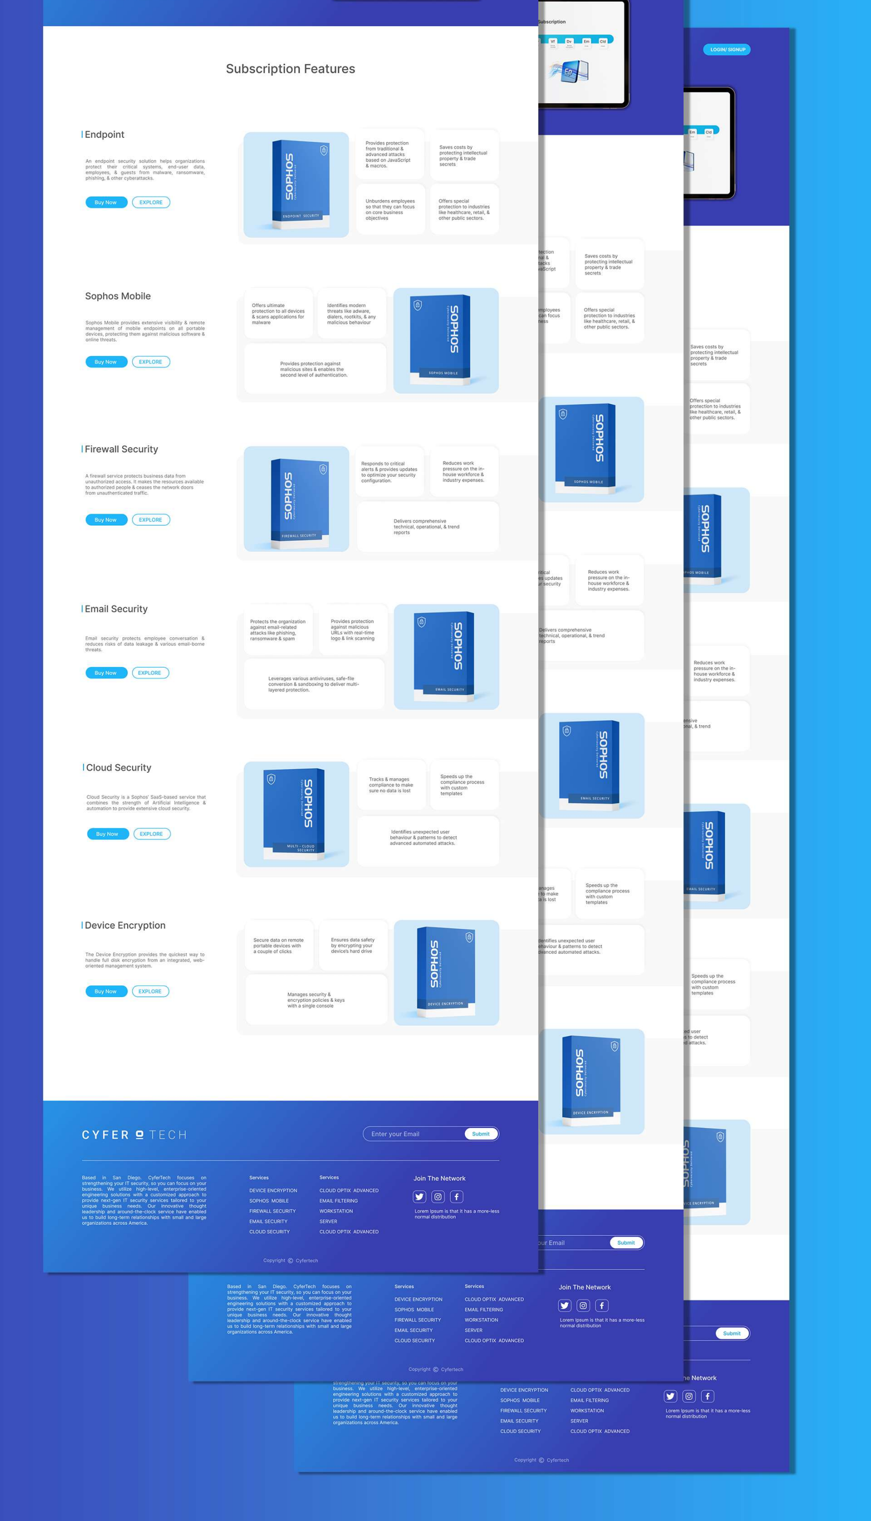
Reliable, Flexible & Adaptable Subscription Plans

Find out how Outsourcing helps Drive Business Growth



Subscription Features

Endpoint

An endpoint security solution helps organizations protect their critical systems, end-user data, employees, & guests from malware, ransomware, phishing, & other cyberattacks.

Buy Now
EXPLORE
SOPHOS
ENDPOINT SECURITY

Provides protection from traditional & advanced attacks based on JavaScript & macros.

Saves costs by protecting intellectual property & trade secrets

Unburdens employees so that they can focus on core business objectives

Offers special protection to industries like healthcare, retail, & other public sectors.

Sophos Mobile

Sophos Mobile provides extensive visibility & remote management of mobile endpoints on all portable devices, protecting them against malicious software & online threats.

Buy Now
EXPLORE
SOPHOS
SOPHOS MOBILE

Offers ultimate protection to all devices & scans applications for malware

Identifies modern threats like adware, dialers, rootkits, & any malicious behaviour

Provides protection against malicious sites & enables the second level of authentication.

Firewall Security

A firewall service protects business data from unauthorized access. It makes the resources available to authorized people & ceases the network doors from unauthenticated traffic.

Buy Now
EXPLORE
SOPHOS
FIREWALL SECURITY

Responds to critical alerts & provides updates to optimize your security configuration.

Reduces work pressure on the in-house workforce & industry expenses.

Delivers comprehensive technical, operational, & trend reports

Email Security

Email security protects employee conversation & reduces risks of data leakage & various email-borne threats.

Buy Now
EXPLORE
SOPHOS
EMAIL SECURITY

Protects the organization against email-related attacks like phishing, ransomware & spam

Provides protection against malicious URLs with real-time logo & link scanning

Leverages various antiviruses, safe-file conversion & sandboxing to deliver multi-layered protection.

Cloud Security

Cloud Security is a Sophos' SaaS-based service that combines the strength of Artificial Intelligence & automation to provide extensive cloud security.
